Don’t hurry. If you must hurry, don’t go faster than the speed limit. If you must go faster than the speed limit, stop sooner than the speed limit. Make sure your brakes work by testing them before you leave. Be aware of your surroundings, and always maintain a safe distance from other vehicles.

If you need to stop, use your brakes gently and gradually to avoid sudden stops. If you must come to a quick stop, use your emergency brakes. Be prepared for the unexpected, and always keep your eyes on the road.

Be patient and courteous to other drivers. Avoid rushing and driving aggressively. Remember, you are not the only one on the road. Take your time, and you’ll arrive at your destination safely.
